## Description

A range of post top road lighting lanterns with die-cast aluminium body and self-extinguishing V2 polycarbonate bowl for mounting up to 6m. The luminaires have inbuilt vandal resistance and are suitable for use in public accessible areas. The aluminium top deflector helps to reduce light pollution. They are designed for use on access roads and pedestrian areas where aesthetic appearance and efficient running costs are important. There are various lamp options to enable a suitable balance between efficacy and effect to be achieved.

## Technical

This range is suitable for normal operation from a 230V 50Hz supply. Other options are available. Do not carry out high voltage circuit tests with these luminaires. Always replace lamps before cycling occurs at end of life to avoid damage or injury due to lamp rectification. For any advice regarding the technical aspects of these products please consult our technical department.
