Description

An attractive range of modular fluorescent IP65 fittings for general use. The luminaire uses T5 high efficacy lamps with high frequency electronic control gear. The body is made from white powder coated mild steel, with welded steel joints. They are suitable for use in many commercial applications, such as public areas and wet production areas. The range is particularly used in areas where fittings are likely to undergo mild attacks from vandals. There are various sizes and lamp options available to suit the particular application.
